

TIPS & TRICKS FOR NAVIGATING THE PICTURES

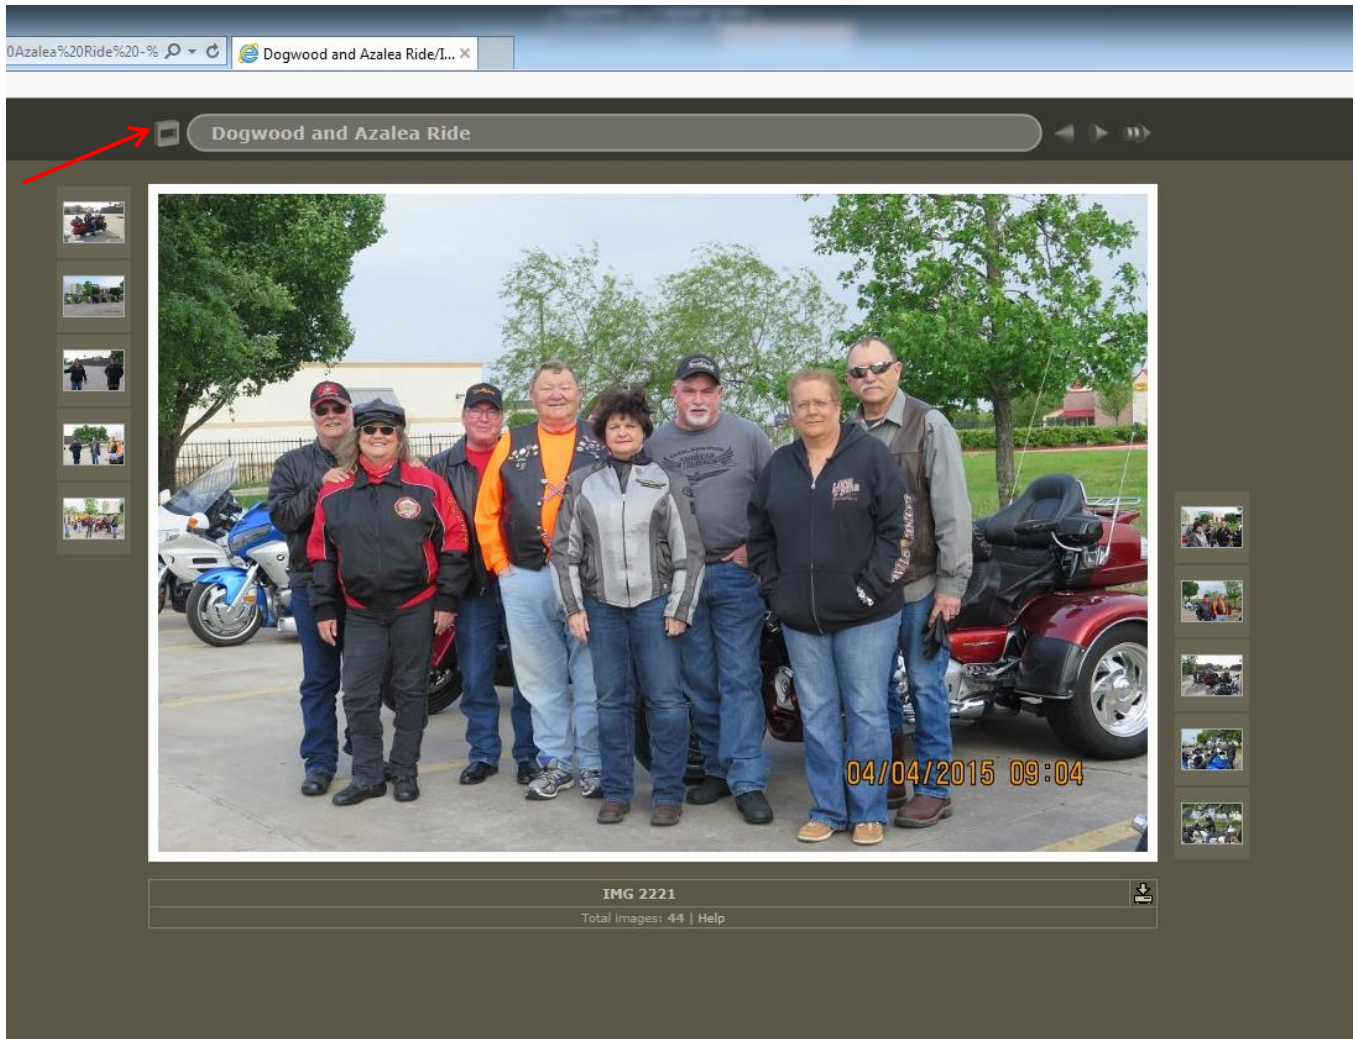

After clicking on a set of pictures, you have a couple of options for viewing them.

1. You can view the pictures as a slide show by clicking the icon indicated by the red arrow as shown below.

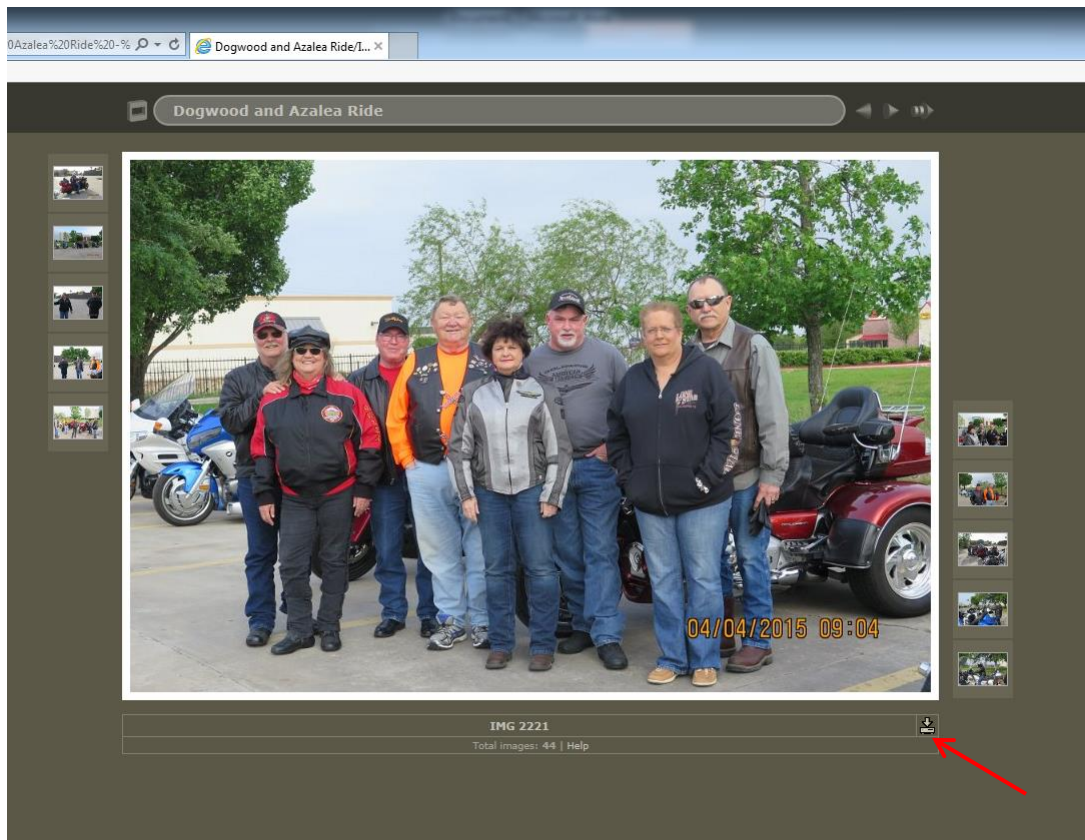

2. You can also change the speed of the slide show by double clicking the icon and input the desired time.
3. While watching the slide show you can go to the next image, previous image or stop the slide show by clicking the icons in the same area.
4. If you prefer, you can click on an individual picture. When the picture opens, you can just left click on the right side of the picture to advance to the next one, or click on the left side of the picture to go to the previous picture, or click in the middle of the picture to return to the main page with the thumbnails.

5. Another way to return to the main thumbnail page, click on the icon indicated by the red arrow as shown below.

6. When you are in the main page with the thumbnails, you can then click on the same icon to return to the main pictures page (i.e....for the year 2015 etc...)

7. If you would like to save a picture to your computer, you can click on the icon indicated by the red arrow shown below. This will open the picture on a clean page and then you can right click on the picture and select one of the options it will give you.

If you have any problems, please feel free to contact your Chapter Webmaster and he will be glad to help you.
